- to use treasury shares already purchased or held in portfolio to service the exercise of rights, including conversion rights, arising from financial instruments issued by the Company, its subsidiaries or third parties.

It being understood that, should the reasons underlying the purchase cease to apply, the treasury shares purchased pursuant to the authorization may be allocated to one of the other purposes listed above or disposed of.

The resolution further provides that the purchase price shall be determined from time to time by the Board of Directors, having regard to the method chosen for the execution of the transaction and in compliance with any applicable regulatory requirements as well as, where applicable, the admitted market practices in force from time to time, it being understood that purchases shall be carried out in compliance with applicable laws and regulations, including Regulation (EU) No. 596/2014 and Commission Delegated Regulation (EU) No. 2016/1052, as well as the admitted market practices in force from time to time, where applicable. In any event, purchases shall be carried out: (i) at a price per share not more than 20% lower or higher than the reference price recorded by the shares in the stock exchange session preceding each individual transaction or in the stock exchange session preceding the date of announcement of the transaction, depending on the technical method chosen by the Board of Directors; and (ii) at a consideration not exceeding the higher of the price of the last independent transaction and the highest current independent purchase offer on the trading venue where the purchase is being carried out.

Sales, disposals or other uses of treasury shares shall be carried out: (a) if executed for cash, on the terms and conditions determined from time to time by the Board of Directors, at a consideration not less than 20% below and not more than 20% above the reference price recorded in the Borsa Italiana S.p.A. trading session on the day preceding each individual transaction; (b) if executed in the context of extraordinary transactions, on the economic terms to be determined by the Board of Directors having regard to the nature and characteristics of the transaction, also taking into account the market performance of the Company's shares; (c) with regard to shares allocated to incentive plans, on the terms and conditions set out in the relevant plans; subject in any case to compliance with any limits provided for by applicable laws and regulations as well as, where applicable, the admitted market practices in force from time to time.
